L'azienda si specializza in due aree, la produzione a catalogo per servire il canale retail e la divisione progettazione per offrire a general contractor e studi di architettura un servizio di project management personalizzato. Per questo abbiamo uno studio di progettazione interno che coordina i nostri contract.

The company specializes in two areas, production from our catalogue to serve the retail channel and custom design providing General contractors and Architects a customized project management service. This provided by our in-house interior design studio which creates our product lines and coordinates our contract.
